Weather Summary/Alert:

Weather will remain clear in the coming five days. Maximum & minimum temperature may range from 17.0-18.0 deg C & 7.0 to 8.0 deg C respectively. The wind is likely to occur from the North-East direction with a speed of 3-4 km/h.

General Advisory:

In view of the severe spread of Corona (Covid-19), the farmers are advised to follow the guidelines given by the Government of India during agricultural operations.

SMS Advisory:

There is a forecast of no rain in the coming five days.

Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
WHEAT	Sowing of wheat should be done. Seed treatment should be done before sowing the seeds.
RADISH	For seed production, roots of radish should be selected for transplanting in the new field.

Horticulture Specific Advisory:

Horticulture(Varieties)	Horticulture Specific Advisory
-------------------------	--------------------------------

Horticulture(Varieties)	Horticulture Specific Advisory
POTATO	Earthing up should be done in the potato crop in valley.
CHILLI	On the shrinkage or getting piebald of upper leaves of chili, infected plants should be removed and destroyed.

Live Stock Specific Advisory:

Live Stock(Varieties)	Live Stock Specific Advisory
BUFFALO	Proper arrangements should be done to protect animals from cold. To save the buffalo calf from patera disease, 10-15 CC Neem oil should be given to the calf immediately after 10 days of his birth. Again after 10 days, 10-15 CC Neem oil should be given. Chenopodium album oil can also be given as a fodder to animals to save the calf/animals from patera disease.
