Weather Summary/Alert:

Weather will remain clear in the coming five days. Maximum & minimum temperature may range from 12.0-15.0 deg C & 3.0 to 5.0 deg C respectively. The wind is likely to occur from the West-North-West direction with a speed of 4-8 km/h.

General Advisory:

In view of the severe spread of Corona (Covid-19), the farmers are advised to follow the guidelines given by the Government of India during agricultural operations.

SMS Advisory:

There is a forecast of no rain in the coming five days. Weeding and hoeing should be done in the crop sown in the last month.

Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
MUSTARD	In valley and low hills, light irrigation should be applied at the time of grain filling.
WHEAT	Late sowing variety of wheat should be done in the second fortnight of this month.
FIELD PEA	Weeding and hoeing should be done in the crop sown in the last month.

Horticulture Specific Advisory:

Horticulture(Varieties)	Horticulture Specific Advisory
CAPSICUM	Seeds of capsicum should be sown in the nursery. To save the nursery from frost, cover it with white plastic and proper movement of sun rays and air should be maintained.
VEGETABLE PEA	Light irrigation should be given after hoeing of the pea.

Live Stock Specific Advisory:

Live Stock(Varieties)	Live Stock Specific Advisory
BUFFALO	To save the animals from the cold, proper arrangement of the animal shed should be done. The sitting place of animals should be leveled so that their productive capacity is not affected and special care should be given to the newborn animals.
